I opened Baytree Beauty & Reflexology in 2016. My dream was to create a quiet, relaxing clinic for clients to enjoy their treatments away from the rush of everyday life.

The clinic is in a rural, natural location, offering a friendly and individual service. My aim is to make each client leave feeling relaxed and confident, working to enhance natural beauty and inner calmness.

Studying many years ago through the University of East Anglia and Edith Cavell for my ODP qualifications in nursing, I started to realise how important and beneficial holistic care can be. After experiencing reflexology and the benefits myself, I decided to train as a Reflexologist which led me to gain further qualifications in massage and beauty.

The clinic is only a couple of minutes out of Fakenham town centre with ample free on-site car parking.

Please do not hesitate to contact me if you would like to enquire about any treatments offered.

Thank you!

Reflexology

Deeply relaxing treatment performed on the feet to promote good circulation throughout the body & relieve stress & tension. Often used to bring relief from a wide range of acute & chronic physical conditions.

Reflexology can be single treatments for pleasure & relaxation although many people find that a periodic treatment helps to maintain their body's balance.

Treatment of an established disorder or chronic condition may require a more intensive series of sessions.
